***January, 2018 (M36)***

H2020-SCC-2014-2015/H2020-SCC-2014: “Smart Cities and Communities solutions integrating energy, transport, ICT sectors through lighthouse (large scale demonstration - first of the kind) projects”

Collaborative Project – GRANT AGREEMENT No. 646578

Project Acronym	TRIANGULUM		
Project Title	Triangulum: The Three Point Project / Demonstrate. Disseminate. Replicate		
Project Coordinator	Damian Wagner (Damian.Wagner@iao.fraunhofer.de) Fraunhofer IAO		
Project Duration	1 <sup>st</sup> February 2015 – 31 <sup>st</sup> January 2020 (60 Months)		
Deliverable No.	D7.14 Publications (3)		
Diss. Level	PU		
Status		Working	
		Verified by other WPs	
	x	Final version	
Due date	31.01.2018		
Work Package	WP 7 – Dissemination and Communication		
Lead beneficiary	2 (SEZ)		
Contributing beneficiary(ies)	All		
DoA	<p>Task 7.6 “Publications (press-releases, articles) in technical press &amp; Publications (press-releases, blogs, articles) in public press”:</p> <p>On the one hand, dissemination of research results will be ensured by publishing professional, scientific articles in international journals. On the other hand, communication of research results will be ensured by press releases and articles in a more general language. Additionally, an eNewsletter will be distributed on a regular basis presenting project activities and information about the project’s progress as well as intermediate results. Short articles and blog entries will be published on the website and specific social media platforms to increase online interactions and professional exchanges. Finally, video clips focusing on the Lighthouse Cities will be published on the YouTube channel and implemented on the project website.</p>

# 1 Deliverable Description

This document delivers a summary of the publications published within M25-36 of the Triangulum project. It is related to Task 7.6 “Publications” of work package 7 “Dissemination and Communication” and constitutes Deliverable 7.14 “Publications (3)”. The document provides an overview of all activities that have been carried out by the entire Triangulum consortium. Please see page 2, section “DoA” for a description of the task.

This is the third version of the deliverable “Publications”. It is updated every year (M12, 24, 36, 48, 60).

## 2 Realisation of the Deliverable

Deliverable 7.14 provides an overview of all publications in technical press and in public press within M25-36 of the Triangulum project done by the entire consortium. It contains an overview of:

- Professional and Scientific Publications
- Press Releases and Articles for General Readers
- Triangulum Communication Tools
  - Triangulum eNewsletter
  - Triangulum Website
  - Triangulum Twitter Account
- Lighthouse City Video Clips

### Reporting tool:

The project partners use the tool EMDESK to report their publications. This allows the work package leader SEZ to get a good overview of all publications of the partners.

On EMDESK the project partners can fill in the following information about the publication:

- Type of publication
- Title
- Author(s)
- Number date or frequency
- Date of publication
- Title of the periodical or series
- URL
- Place of publication
- Publisher
- Open access
- ISSN
- eISSN
- ISBN
- Relevant pages
- Owner

**Publications**

## 3 Overview of Publications

### 3.1 Professional and Scientific Publications

10 scientific publications have been published during the third project year, reflecting the scientific results achieved by the project partners during their project work, including:

- 2 Articles in Journals
- 4 Peer reviewed publication
- 1 Publication in Conference proceeding/workshop
- 1 Thesis/Dissertation
- 2 Other

→ Please find the full list of professional and scientific publications in the period from 01.02.2017-31.01.2018 in Annex I.

### 3.2 Press Releases and Articles for General Readers

Press releases and articles for general readers have been produced, to inform a wider audience on the project activities and aims.

A total of 33 publications have been reported for M25-36 of the project, including:

- 12 Non-scientific and non-peer reviewed publications (popularised publications)
- 2 Press releases
- 1 Communication Campaign
- 3 Website actions
- 14 Publications of videos/films
- 1 Social media

→ Please find the full list of article and press releases in the period from 01.02.2017-31.01.2018 in Annex II.

### 3.3 Triangulum Communication Tools

The Triangulum project uses several communication tools to make the news and innovations public to everyone.

#### 3.3.1 Triangulum eNewsletter

The public Triangulum eNewsletter, published several times a year, provides information about the project's activities and progress during the previous six month period. It informs on project activities and news, progress in the Lighthouse Cities (LHC) as well as past and upcoming events. SEZ is responsible for writing the newsletters, with active input by and information from all partners, especially the LHC, the work package leaders and Fraunhofer IAO as the project coordinator.

The Triangulum eNewsletter is addressing a broad public and is spread widely via e-mailings and social media. The newsletter can be subscribed on the Triangulum website. Currently, 127 persons are registered to receive the newsletter (Status: 05.01.2018). From M25-36, three newsletters have been published (May 2017, October 2017, December 2017).

→ The newsletter archive can be found on the Triangulum Website under: <http://triangulum-project.eu/index.php/press-releases/newsletter>

Figure 2: Newsletter #7

### 3.3.2 Triangulum Website

On the project website ([www.triangulum-project.eu](http://www.triangulum-project.eu)) interested stakeholders are able to find the latest news on the project. The website offers general and more specific information on Triangulum, including news articles. Fraunhofer IAO is responsible for the technical side of the website, whereas SEZ as WP leader regularly provides updates, based on input from the project partners in general and of the work package leaders, LHC and Follower Cities (FC) in particular. The website does also link to the project's social media channels.

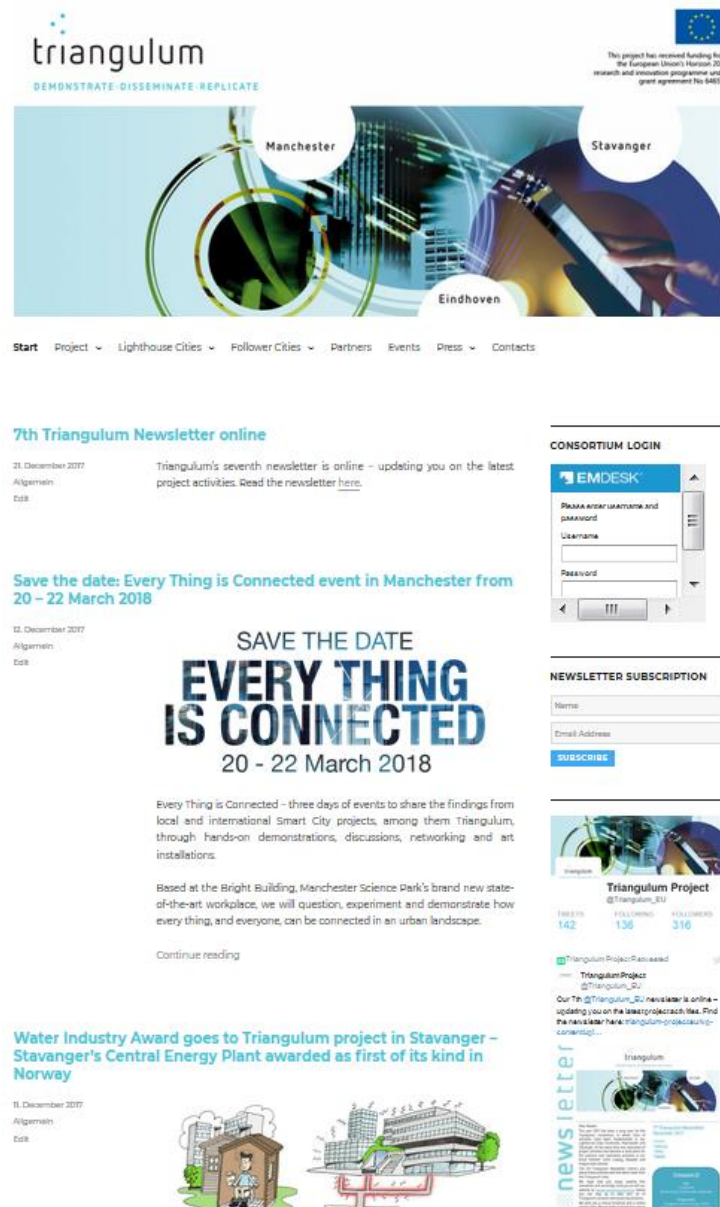

Figure 3: Project Website

A site tracker allows the analysis of the Triangulum website regarding visitor traffic. Since October 2016, the website had about 14,200 sessions and over 53,500 page views from 9,500 unique users. Of all visits, 11.77% were bounces (entering the site and then directly leaving again) and 67.31% correspond

to new sessions. Typically, 3.77 pages were visited with an average duration of 2 minutes and 10 seconds per session. The most visited subpages, apart from the landing page, were the project description, the mission statement of the project, the Eindhoven subpage, the list of partners, the Smart City Framework subpage as well as the Manchester and the Stavanger subpages. (Status: 23.01.2018)

The website is currently being redone by Fraunhofer IAO in a new design and with some new features and is expected to go online in 2018.

### 3.3.3 Triangulum Twitter Account

Access to the Triangulum twitter account (@Triangulum\_EU) has been shared with all project partners in order to involve them actively in promoting news on the project. The latest twitter news is embedded on the project website. Furthermore, the twitter link is shown on every dissemination material (flyer, rollup, book mark, sticker).

Currently, the Triangulum twitter account has:

- 819 Followers (a 50% increase within the last 12 months)
- 600 Tweets and
- 374 Likes

Figure 4: Overview of Twitter Account (Status: 23.01.2018)

Figure 5: Screenshot of Triangulum Twitter account (status: 23.01.2018)

### 3.4 Lighthouse City Video Clips

Short video clips showing project progress in the LHC are being produced by the LHC. In order to ensure the integration of the project's corporate identity, a template has been developed by SEZ that should be integrated in all videos. The videos are published on YouTube, within the Triangulum Youtube Channel ([https://www.youtube.com/channel/UCW8lxWYdWxynkUL\\_6nDRnfg](https://www.youtube.com/channel/UCW8lxWYdWxynkUL_6nDRnfg)), and also integrated on the project website under <http://triangulum-project.eu/index.php/press-releases/videos>.

From M25-36, ten further video clips have been produced, focusing on:

- Manchester's Smart Mobilty activities (MCC)
- The Triangulum Activities in Eindhoven (EIN, WB, TU/i, KPN)
- Video Interview with Henk Kok, Gemeente Eindhoven about successful implementation within the Morgenstadt Network (EIN)
- The Triangulum Activities in Stavanger (animated film) (SK, GS)
- The Triangulum Stavanger Energy Measures (SK)
- The Stavanger "Tour der Triangulum" in June 2017 (SK, GS)
- Stavanger University's role in the Triangulum Project (UiS)
- Kick-off event of Stavanger bus design competition (SK, GS, Rogfk, UiS, LYSE)
- Unveiling of battery-powered buses in Stavanger (GS, Rogfk)
- Project activities of Triangulum partner Lyse (LYSE)
