Triangulum is one of 14 European Smart Cities and Communities Lighthouse Projects (SCC1) funded by the European Union's Research and Innovation Framework Programme Horizon 2020.

Having started in February 2015, Triangulum is one of the first three projects completing this journey with its three Lighthouse Cities Manchester (UK), Eindhoven (NL) and Stavanger (NO), where innovative projects focusing on sustainable mobility, energy, ICT and business opportunities have been implemented and tested.

The project consortium combines interdisciplinary experience and the expertise of 22 partners from industry, research and municipalities that share the same objective and commitment of developing and implementing smart solutions to be replicated in the three Fellow Cities Leipzig (D), Prague (CZ) and Sabadell (ES).

The five year project is now nearing completion, resulting in numerous outcomes and lessons learnt that we want to share today with the smart city community and the public at our international conference "Energising Cities: Innovations, Challenges & Solutions", taking place in Stavanger, Norway from 23.-24.09.2019.

For more information about Triangulum,  
visit our website [www.triangulum-project.eu](http://www.triangulum-project.eu):

## Interactive Sessions 1

### Climate Change – What Cities Can Do!

**Moderator:** Gerd Seehuus (City of Stavanger)

**Time:** 13:00-13:45

This session is about what cities can do – and what Triangulum's cities have done already – demonstrating that the integration of technologies in energy, mobility and ICT leads to a significant reduction of energy demand and local GHG emissions.

- **Ivan Hewlett** (Siemens Manchester)
- **Dujuan Yang** (Technical University of Eindhoven)
- **Markus Schwegler** (Morgenstadt Initiative)

## Interactive Sessions 2

### Smart Governance for Smart Cities

**Moderator:** Oriol Llevot (City of Sabadell)

**Time:** 13:45-14:30

In this session, we focus on political barriers regarding the development and the implementation of smart solutions and how these obstacles can be overcome.

- **Beate Ginzel** (Stadt Leipzig)
- **Mieke van Schaik** (City of Eindhoven)
- **Adam Pajgrt** (IPR Prague)

## Interactive Sessions 3

### We All Can! How Citizens Make the Change

**Moderator:** Henk Kok (City of Eindhoven)

**Time:** 15:00-15:45

This session discusses the important role of citizen engagement in implementing successful smart city solutions, providing examples from the cities of Triangulum.

- **Nadja Riedel** (Stadt Leipzig)
- **Marieke van den Wijngaard** (Woonbedrijf)
- **Solveig Ege Tengesdal** (Rogaland County Mayor)

## Interactive Sessions 4

### Beyond the Project: Replication and Investment of Smart City Solutions

**Moderator:** Damian Wagner (NeueEnergie Consulting)

**Time:** 15:45-16:30

The final session talks about the replication potential of Triangulum's innovative solutions while at the same time addressing the issue of how to finance them without EU funding.

- **Sonja Stöffler** (Universität Stuttgart)
- **Øyvind Schancke** (4D Venture Capital Management AS)
- **Georg Houben** (DG ENER, European Commission)

## Innovation Marketplace

During all **coffee and lunch breaks**, you will have the possibility to **experience** some of the Triangulum innovations **first hand**. Grab a snack and make sure not to miss the **live demonstrations** of our smart video solution BLINK or the WoonConnect app. Learn more about and meet the **individual partners** behind Triangulum: We are looking forward to mingle with you, telling you stories and experiences from five years of Triangulum!

The Innovation Marketplace also comes with a **roll-up exhibition** to inform about the major outcomes of Triangulum as a whole as well as of all our Lighthouse- and Follower Cities individually. The exhibition provides details about the monitoring & evaluation activities of the project, presents the results of the Triangulum replication processes and informs about the Triangulum dissemination & communication activities.

### When:

- 10:50-11:15 h
- 12:00-13:00 h
- 14:30-15:00 h

## On a Mission for the European Cities of the Future: Achievements, Challenges, Opportunities

---

### 13:30-14:00 Meet the New Lighthouse Cities

The newest edition of frontrunner cities awarded funding under the Smart Cities Lighthouse Call of the EU Research & Innovation Programme Horizon 2020 will be presenting their winner projects: +CITYXCHANGE & MAKING CITY.

---

### 14:00-15:20 The Triangulum Journey:

#### Six Cities and Their Ripple Effects

With a focus on Monitoring & Evaluation, Triangulum is looking forward to discuss best practices and lessons learned, getting into an exchange with the new Lighthouse Projects and the audience.

---

### 15:20-15:40 Coffee Break

---

### 15:40-17:30 Horizon Europe –

#### A Mission to deliver the Cities of the Future

This session is meant to trigger a targeted dialogue between the EC, the EIP-SCC community, the Horizon2020 Lighthouse Projects and more stakeholders on which key mission elements shall be delivered, by whom, by when and with which means.
